

2020 TEXAS BUSINESS LICENSES & PERMITS

Overview

The **2020 Texas Business Licenses & Permits Guide** is provided by the Business Permit Office within the Office of the Governor's Economic Development and Tourism Division. The Business Permit Office, established in accordance with Subchapter H, Chapter 481 of the Texas Government Code, is responsible for providing comprehensive information on permits required for business enterprises in the state and for making that information available to applicants and other persons.

This comprehensive permit guide offers a listing of state permits that may be required for persons desiring to operate a business enterprise in the state. To the greatest extent possible, the content of this handbook has been organized to align with the requirements of Texas Government, Section 481.125, and is intended to offer a current listing of state-level permit information according to the types of businesses affected. We hope that you will find the 2020 edition of the permit guide useful in guiding you to the appropriate state resources that can address your business permitting needs.

The information contained in this guide is provided for information purposes only, is not intended as legal advice, and may not address each and every permitting requirement that could potentially apply to your business. For example, many cities and counties may have additional permitting requirements. Businesses are advised to consult their legal counsel on the specific permits required for your business.

If we can be of further assistance, please contact the Business Permit Office at (512) 936-0100. Additional information is also available on our website at:
