

## A New Chapter for Morgan's Point Resort

### Help Us Build a Dedicated Library Building for Our Community

#### Why It Matters

The Mary Ruth Briggs Library is a beloved resource for residents of all ages. But right now, it's tucked inside City Hall—with limited space, hours, and access.

A dedicated library building could:

- Offer after 5 pm weekdays & Saturday hours for working families
- Provide space for community meetings and programs
- Create a welcoming hub for literacy, connection, and lifelong learning

#### Our Vision

The Friends of the Mary Ruth Briggs Library are launching a community-driven plan to build a dedicated, purpose-built library facility—right here in Morgan's Point Resort.

#### We will be working with:

- City Council and Staff for site planning and logistics
- Residents and Volunteers to raise funds and spread the word
- Grantmakers and Donors to secure funding for construction

#### What's Happening Now

We will be asking the City to help us explore placing a modular library building on the lot next to City Hall. That means:

- Getting guidance from Planning & Zoning and Code Enforcement
- Determining the building size and parking capacity
- Ensuring the site meets City codes and zoning requirements

This info helps us apply for grants and build a responsible, community-centered proposal.

#### How You Can Help

Join the Friends of the Library  Volunteer at our events  Spread the word to neighbors  Attend City Council meetings and show your support

#### Let's Build It Together

This library belongs to all of us. With your help, we can create a space that reflects the heart of Morgan's Point Resort.
